

PRESS RELEASE

FOR IMMEDIATE RELEASE

Witherby leads the way with essential information for those involved in the shipping of LNG.

Witherby Publishing Group has launched its latest product at the 30th edition of Gastech, Barcelona.

Witherby's LNG Port Info is a web portal providing detailed and up to date information for each LNG import and export terminal, from the LNG carrier's perspective. This new online resource contains terminal data from over 135 LNG ports in more than 45 countries.

Containing valuable information for those involved with the shipping of LNG, the portal includes:

- Port and country information
- Pre-arrival requirements
- Pilotage and tug use
- Navigation notes
- Charts
- Mooring plans and requirements
- Berth specifications

Witherby are the leaders in maritime knowledge and have been producing publications for the industry since 1740. They are the trusted name in digital content for the marine and energy industry and over 800,000 of their eBooks are in use onboard and in offices.

Witherby's Chief Executive Officer, Iain Macneil, said:

"We recognised there was a need for reliable, up to date information for a visiting LNG carrier to make operations easier and safer. I am delighted to introduce our LNG Port Info Portal to the global industry at the Gastech exhibition and conference in Barcelona."

LNG Port Info officially launched at Witherby and SIGTTO's stand (A147) at Gastech Barcelona. Visit Ingport.info for more information.
